

# Nails

As a member of the Jessica fellowship, we aim to provide the best possible treatments for natural nail growth, as well as being able to prescribe and retail one of the top brands in the nail industry, for you to use at home. The **Jessica** brand is a highly specialised, natural nail care range, chosen especially to improve your own nail condition, depending on individual concerns.

When starting a nail care regime we can offer you courses to help strengthen and encourage nail growth and condition. Treatments take between 30mins and 1hr and we strongly recommend you allow yourself a little time to let the nails dry. It is advisable to pay before your treatment and have car keys to hand, to save you smudging wet nails. We also recommend bringing open toe shoes when having a pedicure, as we cannot be held responsible for smudged nails once you have left the salon.

The Jessica System, is based on an approach so different; it works like nothing else. Described by the New York Times as "The first lady of nails". Small wonder that Jessica is sought after by the media for her advice on nail care and is regularly quoted in magazines such as Elle, Vogue, Harpers Bazaar and Queen.

## MANICURES and PEDICURES

**The Ultimate Manicure/Pedicure** particularly suited to those looking for an anti ageing or conditioning treat for the skin of the hands/feet as well as to improve nail appearance and condition. A full hand and arm/foot lower leg exfoliation is followed by an intense conditioning mask or anti ageing liposome treatment. Hands/feet are then warmed in heated mittens/booties to allow the products to absorb leaving skin silky soft and hydrated. This is followed by a massage, cuticle treatment, reshape and a chosen polish.

## GELeration<sup>™</sup>

Soak-Off Gel Polish

The beauty of Jessica, in a hybrid between gel and polish, it needs no prep other than to buff and cleanse the nail. GELeration's gel formula product, is a mix of resin and polymer; that gives it a fantastic colour and a long lasting, flawless finish, with high shine that lasts up to 3 weeks. It dries in just 30 seconds under an LED lamp.
